## Customer Reviews

Exactly what it says, one of the most important documents in the history of man. Every American should be required to study this document. It is a shame that every naturalized citizen knows the Constitution and Bill of Rights better than a born citizen.

Glad to have a copy at my age!!!!

I think that every student in the US should be required to have a copy of this book, read it, understand it and then act upon it. I thought that I had a pretty good understanding of these documents. I was wrong. Having this in the format of a book makes it far easier to read it and think about what it actually means. It is only when we know the real basis on which this country was based, that we can truly appreciate our founding fathers and what they really intended. I suggest that

you buy this book AND a copy of The Master Thoughts of Thomas Jefferson. There is all too much hype in the media about what our country was based upon such as the idea being currently drummed into us that this was a country founded on a Christian belief structure. It was not and we would be wise to get back to our basics. Read them both together and ponder how the founding fathers really might have been thinking. It will inspire you.

well pleased

Thanks A+

Great reference to have at home or office.

FINE

This should be in every home. Since they don't teach it in school anymore, our children need to know this. Hopefully, it's still our future.
