It's in the tropics somewhere between the Port of Indecision and Southeast of Disorder, but no parallels of latitude or longitude mark the spot exactly. You don't have to be a navigator to get there. Palm trees provide the camouflage, ocean breezes bring the seaplanes and sailboats, tourists and travelers. Passports are not required. Island music rules. No waiting lines for anything. There is a beach and a thatched roof bar perched on the edge of the turquoise sea where you can always find a bar stool. There are lots of lies and loads of stories. It's a comical concoction that blends together like tequila, salt and limes. Where is Margaritaville? It's a State of Mind.

love it

Love the margaritaville coloring book. Hours of fun.

Ok, I admit it. My biggest problem with this coloring kit was something that was stated in the details but I didn't pay any attention to. This thing is tiny! Note to self: Always read all the product details. I do like the concept of this. The cover is nice and sturdy and contains a good selection of double-ended colored pencils and a pencil sharpener. I also like that the pictures are bound at the top, so there are no double pages. The coasters are cute. However, some of the coloring pages will be very difficult to color, as the details are not really clear; it's hard to figure out what exactly you're looking at. Some of the lines are too detailed for the small pages. Some of the lines are light and it doesn't look like the images are complete. I will attempt to return this for a refund. If not possible, I'll suck it up as an expensive mistake.

The book itself is rather small. I was expecting something a little bigger (when I purchased it there was no size measurements listed) Also it wasn't listed that most of the pages in this book have a distressed look, more than half of some of the pages can barely be seen. I was told this is so that the artist can be creative. Overall I wasn't very satisfied with the purchase.

I would have thought the pictures would have been better quality as in larger and more defined lines

I bought this for my mom who really likes coloring. The day she got it she was literally coloring almost as soon as she unwrapped it. I love this brand, and their coloring sets. The art is great, and

the pencils work well with the paper. She is happy- and I am happy! Thanks so much.

If the paper were a bit better, I would have given a five star rating. The pencils are decent quality and a nice palette for the subject matter. The coasters and color pictures are nice too. I enjoyed coloring pages in this book

I really like this, I think it would make a great gift. Everything you need is included and the coloring pages are pretty cool. I originally purchased this to give as a gift but I think I will keep it for myself.
