Children's Speech: An Evidence-Based Approach To Assessment And Intervention (What's New In Communication Sciences & Diaorders)

Synopsis

This is the eBook of the printed book and may not include any media, website access codes, or print supplements that may come packaged with the bound book. *Children's Speech* distills scientific evidence from around the world on sound disorders across the areas of speech acquisition, assessment, analysis, diagnosis, and intervention, and presents it with practical knowledge to prepare speech-language pathologists (SLPs) to work with children and their families. The book is guided by two contemporary frameworks that direct the successful management of speech sound disorders in children: evidence-based practice (EBP) and the International Classification of Functioning Disability and Health – Children and Youth (ICF-CY). The foundation knowledge covers important topics including defining the population, types of speech sound disorders, anatomical structures, articulation and transcription of speech sounds, and theoretical foundations of speech and speech acquisition. Practical evidence-based knowledge is covered in chapters that mirror the stages of contact when working with children with speech sound disorders including assessment, analysis, goal setting, intervention principles and plans, intervention procedures, phonological interventions, motor speech interventions, and the conduct of EBP. The last chapter provides comprehensive clinical information for five clinical cases, including transcribed speech samples, case history information, assessment results and other real-life material. Throughout, readers are directed to complete clinical application tasks, drawing on the case-based information in this final chapter.

Book Information

File Size: 38723 KB

Print Length: 656 pages

Simultaneous Device Usage: Up to 2 simultaneous devices, per publisher limits

Publisher: Pearson; 1 edition (May 9, 2016)

Publication Date: May 9, 2016

Sold by: Digital Services LLC

Language: English

ASIN: B01FSAZ9T8
