Private Pornography In The Third Reich

Synopsis

Sex in the Third Reich: this subject is bound to raise wild speculation. What happened behind closed doors of a nation whose regime broke all taboos? More than 300 private pornographic photographs, almost all from one private collection which survived the most adverse conditions, provide ruthless testimony of the high time when those pictures were still sensational and daring, coquettish and provoking, but most of all: prohibited.

Customer Reviews

"Impressive. The Nazi terror didn't seem to have broken their joy gene." Allan Mitchell
A sensational look behind the curtains of a of an anti-lust period, where sexuality blossomed more in hidden privacy, unless one belonged to the powers that ruled.

I love it thanks,

Great history item...very nice

A true historic overview of this subject. The book is exactly what it represents itself to be!

Very Happy.

Having just received & checked out my 'hot off the press' edition of "Private Pornography in the Third Reich" that I'd share my reactions to the tome with other prospective purchasers. Firstly, regarding physical size, despite the fact that this book is published by 'Goliath' Press it is, in fact, of a rather small format - about the dimensions of a standard paperback novel - thus the reproduction size for the photographs that it presents are relatively small - most about the size of a 'postcard'. All (200 or so) images are B&W photos - except for one pen & ink drawing. The paper and physical reproduction quality are good. There is only a minimal amount of 'text' provided via a 4 page 'Introduction' that gives a brief over-view of the climate of the times from which the 'collection' of images (apparently all gleaned from basically ONE serious WW II vintage German porn hound's stash!) was reproduced. Within the intro there are a couple of sentences that sort of summed up the gist of this book: "Sex in the Third Reich: this subject is bound to raise wild speculation. Probably because one would assume, a regime that broke all moral taboos would not refrain from unconventional practices. However, it was rather an anti-lust period, where sexuality blossomed more in hidden privacy, unless one belonged to the powers that ruled." There you have it! This assemblage of images is one of those 'private collections' and the 'bad news' is: IF one is hoping to find some outrageous, bent, imagery herein - this book may prove disappointing. The book does provide page after page of naked men & women engaging in sexual acts, and/or just being naked, but - the situations presented are of the most 'common / normal' fare and the general quality of everything is pretty much on a par with the 'naughty French postcard' genre. The photos are arranged categorically with such chapter headings as : Nudism, Making Out, Heterosexual Intercourse, Lesbian Couples, Oral Sex, Threesomes. etc. The section devoted to Sadoomasochism (where one might imagine things could get wild 'n crazy) is only about 8 pages long & contains mostly limp photos of spanking scenarios. There ARE many depictions of sexual acts & full nudity - definitely 'pornography' - but it's all pretty grainy, black & white, awkwardly posed stuff with 'period' looking folk going at it. Much of the content reminded me of similar 'historic' erotic photo compilations from the Kinsey Sex Institute files - interesting & quaint - but not particularly 'hot' by today's standards - if that's what one is looking for. There is no info given as to the source or nationality of the photos. A (different) book that I purchased (via) that actually provided a plethora of weird historic Germanic sexual imagery & info was the title: "Voluptuous Panic" - which focused on

the truly debauched 'Weimar Republic' epoch that immediately preceded the rise of the Nazi rule. Putting it into context - this volume of 'Private Pornography...' is an interesting reminder that 'sex' is often squelched during the reign of fascist totalitarian regimes as a method of 'control' - and yet human nature prevails and erotica still emerges. This book would likely be of interest to those intrigued by antiquarian eroticism but those seeking more transgressive erotic visions should perhaps look elsewhere.

This is one hell of a collection. Very explicit but also very funny. Quite clearly adult material. It covers various sexual topics. Quality still quite okay considering the low resolution.

A collection of pornography created during Adolf Hitler's reign of power in Germany is bound to be saturated with preconceived notions. Hitler's strange quirks and peccadillos are well known. But other than being the Führer, he and the Third Reich itself have nothing to do with this work. This is a fine collection of black & white vintage erotica (including regular sex, kinky threesomes, lesbian play, and general nudism). It's miraculous that this material survived WWII, but there is nothing here that is particularly NAZI-like and even noticeably German. And this is a letdown. It would be horrifically shocking, yet quite compelling, to view top-level NAZI's engaged in lewd, perverse behavior. But that is not the case here. Notwithstanding the titillating title, this is still a noteworthy collection of pre-1945 porn, worthy of a book collector's attention.
