Discover What Quality Men Desperately Need From the Woman They Love and Desire Let's face it; your Dad probably couldn't tell you exactly how to be a good wife or a good girlfriend to keep a really great guy helplessly in love with you. Maybe the topic of how to please your husband in bed would have been too awkward a conversation, or perhaps talking about the emotional needs of a man was beyond his comfort level to share. Whatever the reason, your good old Dad probably never told you the ugly truth about what men want from women. But today that's all going to change. If you're clueless when it comes to understanding men in relationships or if you want to know what men want from women, this book is going to fill in the gaps of knowledge where your Dad might have failed to do so. Find Out Exactly What Men Want and How Men Think About Women and Relationships If you feel powerless when it comes to dating and relating to men, then you probably just don't understand what a good man really wants from a woman. The type of guys that make phenomenal boyfriends and spectacular husbands are rare, and their needs are quite different from average men. The purpose of this book however, is to help women to understand not just any man, but high-quality, mature, masculine men. These are the men that prefer to be with high-quality, mature, feminine women. And these are the men that prefer a passionate, fun, committed relationship with a phenomenal woman instead of a one-night-stand. I almost never write reviews on , but I had to log on right after finishing this because I really enjoyed this quick read about men. It was short, sweet, and not belittling in any way toward women, which I appreciated. I can safely say that the content of this book matches a lot of what my boyfriend constantly tells me he needs, wants, and appreciates. The content seems very credible and is written in a "from a father to a daughter" style. That said, the content is beautifully and simply articulated in a way that I don't think most fathers could achieve. I genuinely think every woman needs to read this book with an open mind. I myself used to be a very aggressive female in

relationships because that's what worked well for me in the workplace. I learned to tone it down quite a bit when I met my current boyfriend who taught me graciousness, patience, and kindness. we've been together for over a year now and I couldn't be happier. Thanks to the author for reaffirming some things I already knew and showing me even more ways I can communicate effectively with men.

This book not only starts off with a captivating title (I mean c'mon whose dad told them about their younger more adventurous days) it quickly throws you into a plethora of interesting perspectives on men. Of course giving all men the same blanket to fall under sounds like it could be a bit vague but it surprised me at how much i could relate to this book. As a male I suspected this book might have been an "interesting" read, but I was pleasantly surprised and have a few female friends that I will be recommending this to.

My parents were divorced after the fourth grade and my dad played a very small role in my life. This book filled in a lot of the blanks for me. I think I would have enjoyed it anyway. It is well worth your time.

Y wrote:Wow!!! I have always despised self-help books, but was really attracted to your titles. I NEVER expected to find all of the answers I needed, but I did. I have already, after one day, seen such incredible results and changes in my husband just by incorporating your advice. I can't thank you enough for opening my eyes. Thank you thank you thank you!!!!!!!

This is a great read with many insightful tips. I was hooked with the introduction. I see many things I can work on in my marriage, I only wish Mr. Bryans could elaborate on a few things..Especially how to fix the things we have already screwed up! Or more 'how to' on some of the topics: #2, #32, #60, #70, #73, etc. Overall, I would definitely recommend this book & can't wait to find another by this author.

Takes about an hour to read. Full of gems. I wish all girls took this information to heart. I was nodding in agreement throughout the book. Highly recommended.

I've recommended this book to women who were looking for love and couldn't find it. This book is a quick read and helps you understand how different men are from women. Good, basic advice and

worth the read time.

I read it expecting to say this guy is nuts. But he surprised me. He never generalizes and clearly states not all men are the same and as I read all 101 not all applied to me but some nailed me to a T. A book I am hoping my girlfriend happens to trip over and pick up. Very good stuff
