I found it to be very interesting as a historical account of the Bavarian Illuminati that was disbanded in the late 1700's, it's a great history book for people interested in initiatory mystery traditions and history. The book goes through the degree & ritual work as well as the events that caused it to be closed. If you can't find it here for a decent price go to lewismasonic

Intended for experienced readers - might be boring for the uninitiated.

This book is the real deal. Taking you through all the degrees of the Bavarian Illuminati in its entirety and from primary sources, and culminating with extremely beautiful philosophy in its mystery class degrees. It will leave any reader better for having been exposed to this exposure.

Found this book very interesting. Enjoyed it immensely

The most accurate and most info on secrets of Illuminati and masonic order that I've started to read, it must have if you're into those things.....and this is not conspiracy from what I know and read.....it's true.....

Very interesting book and a great read.

Awesome reading!

Great book for any person intrigued in secret societies, disbanded or still current!
