My introduction years ago into the worldview which I walk was at the recommendation of another to this author's works. I personally knew no one of the Pagan path nor access or knowledge of groups/data on the web at that time. Fate was on my side and smiling ear to ear that day in North Georgia. In this book and subsequent others, Ms. Moura delivers superbly a mind staggering wealth of information. Being a teacher of history in the mundane world shows through here in her devotion to and knowledge of her topic. Very thorough and all encompassing in its range. I have, as most do, gone on to read other material as well but I always come back to the treasure trove that is to be found in this book and the many others of Ms. Moura. If one has a desire to know anything of Green Witchcraft with no stone left unturned, well here you go. To disregard is a disservice to yourself and your intellect.

ordered for a friend. She now has the whole series. She says they are very instructive.

Wife loved it!

Clear writing and teaching.

Ms Moura is fantastic for people that are just getting into Green Witchcraft. If she wasn't so far from where I live I would attend her workshops

I would highly recommend this book for any practicing wiccan/pagan, or anyone looking to study an earth based ideology. I read it within days and I like the fact that it is an actual textbook for her class. Moura never ceases to amaze me!

Good info

I love Ann Moura's books and this one did not disappoint! Written in an easy to follow manner, it is an excellent DIY "textbook". This book however, is better for those who like to "home study", but it is a great book in that regard. Buy it!
