Voyageurs National Park (National Geographic Trails Illustrated Map)

Synopsis

â Waterproof â Tear-Resistant â Topographic Map Located at the border of Minnesota and Canada, Voyageurs National Park is defined by its interconnected waterways which require you to leave your car behind and explore by kayak, canoe, houseboat, or motorboat. In winter, snowmobiles, snowshoes, and skis will be your mode of travel in this extraordinary wilderness. National Geographicâ Trails Illustrated map of Voyageurs National Park combines unmatched detail with helpful information to offer an invaluable tool for making the most of your visit to this inspiring region. Expertly researched and created in partnership with local land management agencies, this map features key park attractions including Gull Island Rookery; Grassy Bay Cliffs; Anderson Bay; Kettle Falls; Hoist Bay; Gold Portage; and the Ash River, Kabetogama Lake, and Rainy Lake Visitor Centers. Designed with a wide range of visitors in mind, this map features detailed and easy-to-read trails, accurate road network, visitor centers and facilities, safety tips, recreation opportunities, plus information on park fees, reservations, and permits. An extensive chart of campsites will help you choose a location thatâ right for you. Snowmobile and snowshoe trails are clearly noted for those enjoying winter recreation in the park. Many other recreation features are noted as well, including trailheads, boat launches, paddle access, houseboat sites, cross-country ski areas, interpretive trails, and points of interest. The map base includes contour lines and elevations for both land and waterways. Every Trails Illustrated map is printed on "Backcountry Tough" waterproof, tear-resistant paper. A full UTM grid is printed on the map to aid with GPS navigation. Other features found on this map include: Black Bay, Kabetogama Lake, Namakan Lake, Rainy Lake, Superior National Forest, Voyageurs National Park. Map Scale = 1:50,000 Sheet Size = 25.5" x 37.75" Folded Size = 4.25" x 9.25"

Customer Reviews

Founded in 1915 as the Cartographic Group, the first division of National Geographic, National Geographic Maps has been responsible for illustrating the world around us through the art and science of mapmaking. Today, National Geographic Maps continues this mission by creating the world's best wall maps, recreation maps, atlases, and globes which inspire people to care about and explore their world.

I use this map as a dispatcher for the National Park Rangers at Voyageurs. So far it has been very helpful in finding campsites, islands, trails measuring distances getting coordinates and finding borders and general where is this in the park kind of answers. I haven't used it on the ground so I have no physical comparison, but it has been a great addition to my tools for dispatching.

Item received exactly as described in a timely fashion. Thanks!

This is a nicely illustrated map which I am glad to have in my collection of maps of the area. I was a bit disappointed to discover that it is, in my opinion, not a particularly good canoeing area. It is more historic and "big lake" than what I am looking for in a canoe area. Perhaps others who enjoy paddling on big lakes will think otherwise. Dave Cass, Edmonton, Alberta

If you boat camp in Voyageurs, this map is a must to navigate. They say the park service will have navigational maps, but when we got to Voyageurs, they were out of stock. Good thing for this map, as the area is very confusing and we would have gotten lost for sure!

Everything was as it said except it is not tear proof.

Great tool, very useful for our house boat trip.

I own a few of these maps. Give a good overall view, waterproof and tough. Not super detailed like

a marine chart but good for general use.

We bought this map prior to a (very fun) houseboat trip, and it joined two other maps as our primary navigation/dock choice documents. The map is beautifully-printed, the geography was faithful to what we encountered on the lake, and there were a number of details that were not present on our other maps. It's double-sided, easy-to-fold, tear- and water-resistant, and covers the whole of the park. We used it a lot to choose dock locations and to plan out our journey. One frustration with the map is that it is purely a map of the US National Park, so it greys out the Canada side of the lakes. At some parts of the park, that is half of the water and so navigation and orientation is difficult. But for Kabetogama and western Namakan Lakes especially, this is excellent.
