If you enjoy Japanese cuisine and are not of Japanese descent, buy this book if you love to cook. This is my second copy. My feline knocked my first copy in the sink!

I had purchased this book several years ago and it got water-damaged during one of our moves. I

had been looking for a replacement for some time. This copy arrived in great condition and now I can actually use it again.

Book;I have enjoyed the recipes of this book for several years. It is easy to use. I have bought a copy for my daughter.

I received my order very fast and the book was in great condition. It looks like it's brand new. I'm so excited and I can't wait to start cooking.

This book is a great introduction to Japanese cooking. It covers everything from sushi to noodles to soup. If you want to learn about what kind of plates to serve dinner on, look here. There's even information about how to hold your chopsticks. I was so inspired I went out, bought the ingredients, and made dinner out of the book the first night I had it.

I have an old copy of this book that got so worn out that I had to buy a new one. If you want to be able to make the essential Japanese dishes this is the book. It is just incredibly easy to use. It covers all of the major types of Japanese dishes and sauces.
