Fast Lane To Victory: The Story Of Jenny Thompson (Anything You Can Do)

Synopsis

Jenny Thompson grew up in a working class New England coastal town with a single mom and three older brothers. As her family struggled to make ends meet, Jenny found a bounty of good fortune and success in the swimming pool. The family folklore maintains that Jenny could swim before she could walk. This water baby went on to win eight Olympic Gold medals as one of the fastest female swimmers in the world. Jenny had to deal with some hardships, including wearing a brace for scoliosis and being teased about being so tall and strong. And she did it with her constant positive outlook and rugged determination to succeed. This story lets the young reader know that being competitive is okay for girls and that dreams really do come true. --This text refers to the Hardcover edition.

Gr 3-6-The Greenbergs describe the young athlete's development as a swimmer and the personal qualities that helped to make her an Olympic champion. A preface by Julie Foudy, president-elect of the Women's Sports Foundation, and an introduction by Jackie Joyner-Kersey indicate the need for contemporary female-sports role models for girls. The authors then describe Thompson's successes and challenges through what seems to be fictionalized dialogue; there is no bibliography. Each chapter includes a vignette of a famous female swimmer and poor-quality, black-and-white line drawings. "Career Highlights" lists Thompson's special accomplishments; "Sports Talk" discusses issues and concerns about female sports competition in an open and honest manner. "Women's Swimming" includes programs, organizations, books, and Web sites. Janice C. Hayes,

My daughter LOVED this book. She is a competitive swimmer, and this book really inspired her!

Bought the book for my daughter who wanted to be a swimmer. She loved reading this book.

It was a good book, I enjoyed it!

This book is a great idea. Jenny Thompson is a great choice for an inspirational story for young athletes, but the book is sub-par. The artwork is embarrassingly bad, using crude line drawings. Important obstacles are mentioned without fully being explained as to how they impacted Thompson or how she overcame them. Jenny Thompson's is an inspiring story worthy of a better book

Fast Lane To Victory is the third in Wish Publishing's outstanding "Anything You Can Do...New Sports Heroes For Girls" series and the story of swim champion Jenny Thompson. Swimming was what Jenny like best, but when her friends at school started to tease her and call her "tomboy" and "Too Tall Thompson", she felt the pressures placed on a lot of young girls to conform to social norms of what was "proper" for girls. Jenny dealt with the negative peer pressure and became so successful as an athlete that she came to be called the "Fastest Swimmer in the World". Also very highly recommended for school and community library collections are the first two volumes in this superbly presented and inspiring sports oriented series for girls: *A Drive To Win: The Story Of Nancy Lieberman* (40-8, ...) and *Sword Of A Champion: The Story Of Sharon Monplaisir* (39-4, ...).

Swimming is a sport that attracts so many girls, and this book can help them get a picture of what it means to be a champion. It is an easy read. It reveals some of the things she struggled with in her life as she grew up. We used this book to write a biography report. The appendix has a list of highlights of Jenny's career, and a history of women's swimming. I also appreciate the "Sports Talk" section that is a spring board for discussing (1) dealing with disappointment, (2) body image, (3) competitive anxiety, (4) benefits of Sports participation for girls, and (5) other general questions about competing in sports.

I love this book! It's a great story of how sports can shape your life in a positive way. Swimmers and non-swimmers alike will be inspired by Jenny's story. This great book is now available as an e-book for those of you who can't find a copy of the original printing. You can order here from [.com](#), the isbn is B0001GDOUQ.
