RV Tax Deductions - Get Uncle Sam To Pay You Back!: Discover How To Offset The Purchase (and Use) Of Your RV With Some Generous And Completely Legal Tax Deductions

Synopsis

Did the purchase of your RV make a big hole in your pocket? Uncle Sam is coming to the rescue! Did you know you could offset the purchase (and use) of your RV with some very helpful and completely legal tax deductions? It's true. This short, no-fluff guide reveals the secrets to getting the RV tax deductions that are rightfully yours. Discover... * How you can legally deduct part of the costs of owning your RV. * What you must do to qualify for potentially big tax deductions. * Where exactly do you deduct your RV expenses on your tax returns? * The 3 main RV expenses that you probably already qualify to deduct. * Might you be able to deduct some common RV expenses as business expenses? Find out. * What exactly is deductible as an RV business expense...and what is not?...and Much, Much More! So download this short, easy to read book that reveals how Uncle Sam can start giving you back some of the money you have invested in your RV. [Click here to buy this book on Amazon](#).

Customer Reviews

Not much new in this book, it might be best for people who don't have much knowledge about basic tax laws.

No information found that the average person would not have already known. Interest on RV loan, sales taxes and limited deductions for business use. That's it!

short, flimsy and not worth the 2.99 I spent on it. A bit more research among people who actually do this would be of great help.

Very simply laid out. Good information some of which I knew. Some of which I can't use. Goes over purchasing, sales tax, registration, business trips, etc... Very good in mentioning proof and no no's. Mentions that the use for business is likely to be audited. Does not bring up full-time RVing and tax deductions. Very short.

Don't waste your time on this, very basic book, doesn't go in depth at all!!!!!! I said good day sir

This information can be found word for word on free websites. There is nothing in depth in this book...just the basics. I read it in 5 minutes flat.

Most of this information is basic, but the value is understanding your options. Very useful reference. I'm very good at tax planning and found this useful in understanding my personal and business tax options. Example, I forgot my Sales tax deduction, \$7000 plus. This one item more than paid for its self.

The first time ever when I thought I was ripped-off with a Kindle or purchase. What a waste of my money.
