Customer Reviews

This is a great tool to have. I'm using it to study for nclex. I'm using it on my current job, and I'll use it on my new job. Great breakdown of important assessments. Highly recommend!

This is concise and really helps to show you what to focus on. I might say that it would be overwhelming at the beginning of nursing school, but great for Senior year or studying for the NCLEX

This little pocket flip book is invaluable if you are a nursing student or new nurse, wealth of information very condensed and to the point. Each system is represented with landmarks etc.

I am able to review things I have learned in nursing school. There is straightforward assessment tips to do in emergency situations based on level of acuity. It is easy to find the medical conditions based on review of systems.

Yes very helpful with my work
