Draw 50 Buildings And Other Structures: The Step-by-Step Way To Draw Castles And Cathedrals, Skyscrapers And Bridges, And So Much More...

Synopsis

Draw 50 Buildings and Other Structures teaches aspiring artists how to draw with ease by following simple, step-by-step instructions. Celebrated author Lee J. Ames shows readers how to draw famous structures from all over the world, as well as an igloo, a barn and silo, a windmill, and even a teepee. Ames's illustration style and renowned drawing method has made him a leader in the step-by-step drawing manual, and the 31 books in his Draw 50 series have sold more than three million copies. Ames's instruction allows seasoned artists to refine their technique and guides amateurs to develop their own artistic abilities. Even the youngest artists can draw the tallest, grandest structures. It's easy to construct any type of building when it's done the Draw 50 way.

This kindlebook of Draw 50 Buildings and Other Structures: The Step-by-Step Way to Draw Castles and Cathedrals, Skyscrapers and Bridges, and So Much More... by Lee J. Ames has a multitude of different images/drawings of a diverse range of houses. Some of the images that are shown for a person to draw; Leaning Tower (Pisa Italy), Big Ben (London England), Transamerica Building (San Francisco USA), Rheims Cathedral (Rheims, France), Chalet (Switzerland), Pagoda (China), Georgian House (New Hampshire U.S.A.), House, 1621 (Kent, England), Log Cabin, and more.

I've been drawing for over 20 years with recently having an interest in drawing buildings and structures. I purchased this book thinking it would get me started on doing so, and I was excited when it arrived. It did get me started; however, I'm not thrilled about the instructions. I do like that it doesn't have worded instructions, but as one reviewer mentioned, it jumps from simplicity to complexity in a matter of four "steps." Not to mention, when it comes to the "final" step, it's completely finished! Where did those extra lines come from?! Sometimes it's difficult to make out the lines or dots in the finished products because they're so close together. If I didn't have drawing experience, this would be extremely challenging. I don't know how this is appropriate for an 8 year old but people develop at their own pace.

It's a great very very beginners book to help how to draw diferent buildings from simple structure of lines. A great one to have around, like those with animals.

Grandson lobes it. thanks

I was looking for something a bit more detailed and maybe with suggestions on drawing actual buildings. This book is more better suited for children. For a child looking to draw structures, it is a helpful start.

My kids and I like it very much. It is quick to grasp the skills by following the steps.

Well written, and illustrated; this book will be a great help as a resource for my art.

prompt service, enjoying!
