It's fine- I liked only 4 of the pieces. I feel like some of the other pieces chosen are not as fun sounding for kids to play

This is a wonderful book for beginning piano students.

The classical songs in this book make the kids feel like accomplished pianist. They are simple enough for them to learn to play well, but familiar enough for adults to recognize the tunes.

Not really appropriate for the young beginning student since most of the pieces include eighth notes and many should be played at a brisk tempo. However, this will work well for my student who came to me using the Accelerated Older Beginner Book 1 and needs additional support at the mid-point in the book.

Perfect for the newish piano student who wants a little more challenge thrown into the mix.

Got these for my eight-year-old pianist for summer practice. She used the book all summer just to keep in practice. She enjoyed learning some different classical music.

Great classic pieces made into great beginner challenges. Love this series.

Nice renditions of classical tunes. My 5 year old loves that we can play duets. I like that when I put on the orchestral recordings and he gets really excited.
