Synopsis

There are many different Witchcraft traditions. Although the traditions vary, there are still many linking factorsâ •but what do you do if none of the traditions exactly match your needs and abilities? Why not create a tradition of your ownâ •one rooted in natural magick and shaped to fit your personal goals and beliefs? If you want to do this, you have to get *Embracing the Moon* by Yasmine Galenorn. *Embracing the Moon* is based on a practicing Witch's personal magickal system. She has already cast the spells, blended the oils, and used the invocations, so you know they will work. From basic tenets of Witchcraft to spellcasting, from herbs and oils to ritual Shadow Work, *Embracing the Moon* opens a whole world of magick to you. If you are content with any tradition, you can add some or all of the exercises and techniques given here. Perhaps you might want to change them to fit what you do more accurately. That is exactly what Yasmine Galenorn would like you to do. If you want to make your spiritual path as unique as you are, *Embracing the Moon* give you all the options, expert insights, and support you need to work natural magick in a way that's meaningful for you. Get *Embracing the Moon* today.

Richard Webster was born and raised in New Zealand. He has been interested in the psychic world since he was nine years old. As a teenager, he became involved in hypnotism and later became a professional stage hypnotist. After school, he worked in the publishing business and purchased a bookstore. The concept of reincarnation played a significant role in his decision to become a

past-life specialist. Richard has also taught psychic development classes, which are based on many of his books. Richard's first book was published in 1972, fulfilling a childhood dream of becoming an author. Richard is now the author of over a hundred books, and is still writing today. His best-selling books include *Spirit Guides & Angel Guardians* and *Creative Visualization for Beginners*. Richard has appeared on several radio and TV programs in the United States and abroad including guest spots on *Hard Copy*, *WMAQ-TV* (Chicago), *KTLA-TV* (Los Angeles), *KSTW-TV* (Seattle) and the *Mike and Matty Show* (ABC). He currently resides in New Zealand with his wife and three children. He regularly travels the world to give lectures, workshops and to continue his research.

fun little book .

This petite book packs a lot of useful information and literally sets you on a new way to look at numerology. Most people into new age stuff already know how to reduce their personal numbers to read their luck and what have you. Here, the author genuinely imparts his secrets on using this method to not only reveal one's life's blueprint but sets the guidance for discovering one's own life purpose. In addition, he imparts the knowledge of creating magical talismans using numbers and correspondences with the planetary influences to compensate for lacking areas in one's life in order to avert bad energies. After completing this book, I felt a sense of respect and gratitude towards the author for sharing his wisdom and knowledge. It's not easy to find a good teacher these days. It's unfortunate that this book is out of print but I believe if enough people requested for it, it will be worth the publisher's effort to launch this gem back into the market. Meanwhile, I feel blessed to be able to own this treasure and I am using it to realign my life as much as I can believe it does. Blessed Be.

I am totally new to magic squares and found this book to be educational. It teaches how to construct odd-numbered size magic squares and even-numbered sized magic squares (these two "types" involve different methods). Magic squares have the property that the sum of numbers vertically, horizontally and diagonally add up to the same value! The bulk of the book is about numerological personal yantras (4 x 4 magic squares) which include the numbers in a person's date of birth. You will find it easy to follow the instructions to construct your own personal yantra and find out what it says about you. This book also teaches how to use yantras for love, luck and protection (as talisman). If you know how to add and subtract whole numbers and understand simple English,

following the instructions should be no problem as the methods are easy and adequate examples are given. The author has intentionally left out negative yantras as he believes that yantras should not be used to cause harm or hurt to other people.

I didn't believe in numerology before. I couldn't see how numbers could affect our lives. This book has made me a believer. I calculated my numbers based on my birthday and used the book to interpret the results and they were about 90-95% accurate. I also calculated my numbers for this year 2006 and they were again right on the dot. It's as if it was reading my mind as to what I intend to do this year. This has got me started on numerology. I am planning to go deeper into studying numerology.

I find the mundane use of numerology a bit boring. Simple put not all readings will be on target. I suspect it depends on language and matrix usage. (I mainly use the Pythagorean matrix) This subject spices up my Numerology workshops and fills people with wonderment and magic. I love this book and it is a shame that it is not in print.....I have learned a great deal from it and it is well written and informative.

This is a very good book for those who want to know more about numerology. The squares are excellent and it is easy to read. I recommend it.

this book is very easy to follow and the directions are very good. it was even easy for me to do and i am not that good at math

i love one girl i want know she love me or not and i want know my love will be successful with her i really want spent all my life with her but i don't know how
