Reid Wilson, PhD, coauthor of *Anxious Kids, Anxious Parents* and *Playing with Anxiety*; Reading this book is like having your own therapist for fears and

phobias. It is crammed with information and lots of ‘how-tos’ and manages to avoid the pitfalls of cookbook, manualized approaches. Most readers with fears and phobias will want to read sections over and over again, since there is too much information to absorb in one reading. Parents and therapists should find it a useful resource tool. This is a comprehensive, cutting-edge, third-wave, cognitive behavioral therapy (CBT) approach to [dealing with] fears and phobias, written in a style that will appeal to teenagers (for example, every quotation is from a contemporary character who should be well known by the target audience). I wish I had a resource like this when I was in my teens, struggling with my own anxieties.
