Customer Reviews

I found the story of Alex and Catherine really cute and interesting. I generally don't like the typical lesbian crushing on the straight girl story because I feel like 90% of the lesbian romance genre is about that same stuff I feel that this book gave it a nice twist on the matter so it was kind of refreshing. The sex scenes were really hot, but there were too many of them for my taste.

Amazing book! Alex just broke up with her girlfriend of 5 years. Catherine just divorced her husband. From the moment they first meet, Alex is mesmerized. Catherine doesn't understand that first spark with a woman. Alex decides that Catherine is unobtainable and Catherine doesn't know what she feels. It takes a traumatic event and lots of soul-searching for Catherine to figure out who she is and what she wants. This is that rare book that projects both women's personalities with such vivid descriptions that the reader truly feels both ladies angst, love and lust. I loved the main characters and their friends. This is really a remarkable book and you would do yourself a favor if you just read it. I highly recommend it. Very much looking forward to more from this author. She has a wonderful future. Thank you, Ms, Kane, for the gift of writing this book!

I have a bias against lesbian romances where the two women meet, fall instantly in love, and make forever declarations five pages into the book. In this engaging story, the opposite happens to the point, as a reader, I said, "enough flirting, let's get this going"! What an deliciously agonizing wait for the two characters to finally admit their feelings for one another and move on to "the good stuff". This is a well-crafted story that is engaging from first to last page. Wow, what a page-turner. I really look forward to this author's future works.

I usually just score the books I read but, I enjoyed this one so much, I had to leave a review to try encourage others. In my opinion a good book should be three things; engaging, evocative and complete. This is a really good book. I couldn't put it down (don't tell my boss. I started it at lunch and finished it before 5), I laughed out loud, I almost cried and felt like my entire body was on fire during the sex scenes (again... don't tell my boss!) I wasn't left wanting for answers when it was over. I was super pleased with the happily ever after! I cannot wait for more work from this wonderful author.

I could not put this book down! Alex wants Catherine but Catherine is straight, until she figures out she's in love with Alex. Steamy with a happily ever after I was worried wasn't going to happen at a pivotal point in the book. Waiting patiently for the next one in the series.

I love lesbian love stories, especially ones with a happy ending, but I also love "true to life" stories and sometimes life can be a bit messy emotionally. this book kept me emotionally in the story and I must confess I fell a little in love with both of these characters. This book will have you squirming

and in some places is such a sexy book...but you keep wondering if they will ever get together for real and not just in their dreams...lol Can't wait for the next in the series...Good Job Diane Kane!!!!

I enjoyed this story ,the characters, the emotional ups and downs than revolve through every relationship.Well done. Can't wait for the next one.

I just finished reading this book today and was sorry it ended . The 2 main characters were believable and very entertaining. I really was glad to see Alex was a surgical technologist; I could relate having worked in this profession for 3 years. The author's researcher was excellent and remarkably balanced. Just enough facts to keep the action realistic without losing the pace and charm of Alex and Catherine's relationship.
