Book Of Rhymes: A Laxative For Creative Constipation

Synopsis

What rhymes with Google, or Beyoncé, or better yet, what rhymes with ORANGE? This book full of words that rhyme has all the answers! With over 50,000 rhyming entries, this essential reference tool will help songwriters, poets, and advertisers overcome writer's block and quickly find the right rhyming word. It features slang, phrases, idioms, and pop-culture terms, not just dictionary words. Compiled using Family Rhyme and Slant Rhyme, it gives you far more rhyme options than traditional Exact Rhyme. This allows; ORANGE, FOREIGN, WARREN, and FLORENCE to rhyme together. Pick up this book today to tremendously widen your margins of creativity!

Customer Reviews

"Next best thing to having Eminem's cellphone number." -McKay Stevens, Grammy Nominated Songwriter
"Too bad this didn't exist sooner. Would've prevented a lot of bad advertising jingles."
-Brandon Crocket, Advertising Copywriter at Leo Burnett

Romane Armand has written a reference book for the ages. The "Book of Rhymes" is a book for: Lyricists looking for a new twist, Poets writing to sharpen their verse like a bayonet, Logophiles searching for a new style, Jingle Masters creating for a broadcaster. This book is a compendium of over 50,000 entries that will help relieve bloated writer's block. They are categorized by vowel sounds and include exact rhymes, family rhymes and slant rhymes. There is

even a cross reference for similar rhyming words (l-ady, see aby). If you love to write and want to expand your vocabulary look no further than Romane Armand's *Book of Rhymes* and put another tool in your writing box.

Please everyone support my brother Romane and go cop that *Book of Rhymes*. A lot of mumble jumble rhyming in Hip-Hop now days and rappers can't rap/rhyme. Rappers is constipated dawg, but this book is a laxative for creative constipation. This is what the game's been missing, for all of you fake rappers....

What a resource! Imagine taking a common word and linking it to other words that rhyme in a family. Rappers, Poets, Storytellers alike will benefit from the book. Students of the game as well.

This is a great book. It can be a little confusing to navigate and sometimes things don't really rhyme together in the columns. But, it's a great tool to use words you wouldn't usually think of when writing.

Sometimes I wish I could do half stars when rating. This would be a 3 1/2. Good book. Great rhymes and such but the first part of book came apart in my hands. Don't know if Texas heat got it or what but binding was a huge issue for me.

As a creative director and copywriter, I'm always looking to bend (and sometimes break) the rules of the English language to craft my message, and help it stand out from the other 10,000 ads everyone sees every day. *The Book of Rhymes* is that curated resource, by creatives, for creatives, to find rhymes and give my wordplay the juice it needs. Keep this one at your desk at all times.

I purchased this book elsewhere. It is well worth the price. As an award-winning songwriter, I can tell you it is unlike and better than any other rhyming dictionary. Better than web sites out there. This is my new go-to when it comes to finding the rhymes I need. It's just a blast to read. Q

This book is for song writers, poets, journalists, non-fiction writers, bloggers, speech writers, public relations specialists, fiction writers, students, those who write emails and letters as well as anyone else who writes. I have watched Romane put together the *Book of Rhymes* for over a decade. Rarely does any one individual invest her or his heart and soul, money, time, and other resources so completely. The result is a monumental work. Romane has created a book that multiplies the

number of common words that rhyme with one another. He didn't create his book by finding only words that look like each other; he has put together the first resource that adds all words as rhymes that sound like the word you are trying to match. This book will add to your creativity.
