Santo Criscuolo is one of the original founders of the online mountain bike guides Dirt Northwest and Dirtworld.com. Previously, he was a radio and TV sales executive, an online advertising sales manager, and an editor for Northwest Skier magazine. He is also the author of *Ski & Snowboard America: The Pacific Northwest & British Columbia* (Globe Pequot Press, 2001). His in-the-dirt and on-the-trail experience includes seven years of cross-country racing, starting Team Dirtworld.com, the largest amateur mountain bike racing team in the nation, and searching for singletrack all over Western Canada, The U.S., and Central America. Rain or shine, you are sure to find him in the saddle somewhere in the Puget Sound region.

This book was great in helping to plan our trip out to Washington with ease. The routes are easily laid out and simple to follow. Map allow ease of planning when and where to go, and the grading is good and helpful to plan how hard a day you want!

I just returned from a trip to Seattle. I bought all three Mountain bike guides available and I found Criscuolo's book to be the best. His maps were better than Zilly's, directions were better, and the descriptions of the trails were more accurate. I also appreciate that the trails in Criscuolo's book are rides that are mostly 10-30+ miles. Zilly's book "Kissing the Trail" is loaded with "rides" that are 1 to 5 miles.

I wonder about the previous review and if writer isn't a friend of Zilly's. Did he even read Criscuolo's book and use it out on the dirt? Puget Sound Mountain Biking has several rides mapped out that have never been published in any book. For example, the Black Diamond Coal Mine and Tokul Creek. Maps are much more detailed than Zilly's books plus Criscuolo provides relevant commentary on the thrills or lack thereof on each trail.

With 3-4 excellent guidebooks already covering these areas, this one is really a rehash of those books. In addition, many of the areas covered have incorrect landowner and access information, as well as poor instructions on how to ride the loops for maximum fun. Look to Zilly's books and local group rides for the best trail guides.
