How is it possible that this author always manages to write a story which is fascinating from beginning to end. This time her fantasy brings us back into Arktos City. The city of the beautiful knight Virago and queen Calla. A city full of beautiful lady knights but also of women who dreams of becoming a knight. So does our main character, Talis. During a night out with her friend Lellie, Talis helps a woman in need. There was an instant spark between them. A spark that quickly turns into strong feelings for each other. Before they can give into their desires, something unexpected happens. One event follows another at a fast pace and the only thing Talis can do is to offer help again. Not once but twice her help is required and Talis and her friends went on the road together, not knowing what to expect. In the meantime something beautiful blossoms between Talis and the woman she has saved from an disaster. Only a mistaken identity and the complications of that night can destroy everything. Talis know she must reveal her secret but every time she is about to tell the truth, someone interrupts her. A burning hot suprise is waiting for Talis and her friends. A surprise that can change her life totally or it is the end of everything. The author takes you into a roller coaster of actions. A roller coaster where you don't want to step out. I was spellbound by this wonderful story. It was exciting, touching, funny and full of romance. It is excellent written in a good pace and before you know it, you're at the end of the story. I highly recommend this awesome fairytale.

This is suddenly my favorite of Essex's knight books. Unlike previous installments, this one takes place entirely in the world of Agrotera, where all the lady knights come from. There are very few references to other worlds, but we do see at least one familiar face. This one stands on its own and can be read independently of the rest of the series. It's a fun swashbuckling romp, with a group of courageous ladies who are all individuals and strong in their own ways. I think my favorite aspect of the adventure was how they all worked together, complementing each other's unique skills. And of course, the romance. The relationship between Talis and Cinda could've been cliché, but it remained fresh and well-written. This one will definitely be read more than once.

There are no words to describe how much I loved this book. I absolutely love Bridget Essex's Knight series, and this book definitely lives up to the awesomeness of the others. It's beautiful and fun and

heartwarming. Cinda is relatable and funny, and Talis is sexy and cute, all at once. And then, there are so many other wonderful, funny, sexy characters as well. The book has everything you'd want in a Fantasy novel, and it has everything you'd want in a romance novel. When I read this book, I was having one of the worst weeks of my life, and this book made me smile every time I opened it. It made me smile even when I didn't think I could. And it will always hold a special place in my heart because of that. I can definitely see myself reading this book many, many more times. =)

The things we can accomplish with having love in our hearts. Ms. Essex's gets better with each book. Even though this is about Talis and Cinda, hope to read about the others in future books. I am curious about Queen Calla, will she have her own book? Does she find love? In past books it seemed to give reference but nothing came out about it. Hope this changes too. ;)

I like her other books way better. This was more along the lines of a comedy and didn't quite capture my interests. Still like her other books much more.

Another great read in this series. never have been disappointed in any writing from Bridget Essex. Waiting to see what comes next.

Just One Knight is the newest in Bridget Essex's Knight Legends series, and my favorite to date--the first set entirely in the world of Arktos, where the women are strong and the horses have horns. Cinda, extraordinary baker, is smarting from a nasty breakup when she encounters Talis, horsehand with fluency in equine languages and aspirations to be a lady knight. If mistaken identities weren't enough, Talis's twin sister and queen of thieves swoops in to kidnap--er, invite--the girls and their best friends on a quest to right a family wrong. This is your typical swoony Essex goodness, exploring the setting of Arktos with more depth (I want to go to the monster girl bar, just saying) and leading the girls on a fun, rollicking adventure. While the romance is lovely and central to the story, the friendships--the three best friends, and the growing alliances during times of great strife and monster negotiation--are what really appealed. As much as a romance, this is a story about women bonding and being stronger together--and yes, this is inclusive as a beautiful passage about the traditions of Moonborn folk explains in the third act. Always happy to return to the world of Arktos, and can't wait to read many more from Bridget Essex!

The Author did a wonderful job with these characters. It's write in the first person , being told by the

two main characters . What an experience. The book starts off with them both telling their stories which happen at the same time. So we get both accounts. Then with much surprise, the story really takes off when Talia meets up with her twin sister... and with a band of mismatch characters, a thief, two knights, a baker, a dragon lady, a donkey and a horse. they set off on the adventure of their lives... it's so very exciting from this point... and not trying to give anything away... there's a great battle that brings this group even closer. I found the Author did an amazing job writing this book, it will keep you so engaged you won't want to put it down. It's funny, it's sad in parts, it will even aggravate you. Best of all it will make you smile and feel good about your journey through this book...
