## Customer Reviews

I love the information, it's condensed and a nice review. If I need to get further in depth of a subject, I just pull out my notes from a previous class or YouTube my question. This study guide is very helpful and it's not intimidating at all. I am still going through it. I started with the science portion and it's amazing how many little tid bits are in there to jog my memory, especially on the A&P material. I like that the pages are thick enough so my writing and highlighting doesn't bleed through as that's a pet peeve of mine. Overall it's a great study guide. I recommend it.

I enjoy the familiar and comfortable style of writing throughout the guide. At times, it feels like a "friend" is sharing their knowledge and expertise. Many examples are relevant to what is happening in the world today and this helps in understanding. I enjoyed the pictures and diagrams. It would be helpful if some of the applicable Test-taking Strategies could be "mapped" to questions\answers. I believe I have come across many as I took the tests, but explicitly pointing out the linkage would be further helpful.

I never once used the book. It's still brand new. My cousin is a teacher and she recommended that I purchase one with a practice test before and after. This one doesn't include it.

This book was awesome! I really liked the practice tests! Passed my TEAS the first time. Passing my book on to help a friend.

Great book with explanations for each question. Delivered fast. Also you get a free DVD once you purchase the book.

This book is very useful and easy to understand. I recommended to my friends.

The study manual provides a comprehensive look into the inner workings of the TEAS. I love that there are several tips about various aspects of test taking skills, especially since there are some that I've only learned from this study manual. This is one of my go-to study manuals for TEAS preparation and I would definitely recommend it to my friends.

I love how this book is simple and to the point. Saves time, worth studying!
