# Visionary Activist Astrology: Become A Secret Agent For Transformation

## Synopsis

When ancient people first sought to explain the mysteries of their own lives, they looked to the heavens. There, they saw a perfect reflection linking them directly with an omniscient universe. The study of the stars and the study of the psyche comprised a single science - astrology - that led C. G. Jung to describe astrology as "the first form of psychology". Visionary Activist Astrology escorts you through the mists of time to our own century, when science has verified what ancient people knew instinctively: All life and all matter is universally connected. With wit and scholarship, author Caroline W. Casey offers a new vision of astrology and its language, using a rich, detailed system of symbols and mythic archetypes to describe the key relationships underpinning all of creation. Join this respected authority and see how the heavens overhead offer a valid psychological system for understanding the larger forces that shape our universe - and your unique destiny. More than nine hours of detailed personal instruction cover: What astrology tells us about planetary connections  
Symbols and structures of the psyche  
How to use your celestial chart as an inner navigational tool  
Meditations and exercises for connecting with the energy of the universe  
Visionary Activist Astrology is a guided tour of the unlimited potentials outside your window - and within your own spirit.

Language: English

ASIN: B017HWO2V6

Best Sellers Rank: #42 in Books > Religion & Spirituality > New Age & Spirituality > Astrology

#273 in Books > Audible Audiobooks > Religion & Spirituality > New Age & Occult

## Customer Reviews

Carolyn Casey is a delightful and insightful guide to contemporary astrology, with an emphasis on how to participate in creating a better reality for us all. She is straightforward, witty, and thoughtful. Definitely worth a listen!

I've often thought of studying astrology, and instantly get overwhelmed. This book goes through all

of the facets over about 8 hours, and makes the whole cosmology suddenly graspable. Also, the stories are beautiful, and life becomes more of a cohesive whole. I saw her speak and Bioneers, and was impressed. Her humor / trickster / redeemer archetype also shines through. I'm a relative beginner at astrology, relatively advanced in healing modalities and intuition, and I found that there were so many layers. One could study these things for years. But I haven't found a better book that explains the principles so well. There are also some fascinating tidbits about language, origins of words, and our culture's forgotten relationship to the skies. Grateful to have found this.

Caroline W. Casey's *Inner and Outer Space: The Astrological Language of the Psyche* has long been one of my favorite sources of Ms. Casey's visionary work. Any long drive is a wonderful excuse to bring these tapes out again! I was thrilled to think there was a new set of tapes now available. However, other than the publisher's voiceover saying these tapes are "Visionary Activist Astrology" rather than "Inner and Outer Space" these *are* the earlier tapes. If you haven't had the pleasure of meeting the earlier tapes, however, I cannot recommend them highly enough. Ms. Casey leads one through Paracelsus to Jung to Gurdieff and on to a highly original and beautifully-told interpretation of the astrological language as a tool for transformational change. Her stories about her own life, the planets, teaching stories of native peoples and great philosophers blend into a system for understanding the forces that shape our world. When speaking of the slow outer planets which shape the entire culture or the inner planets which vary greatly between individual charts, she illumines our lives and times. Whether one chooses to believe in the influence of the stars, this down-to-earth relinking with a spiritual lineage of ancient times to the spiritual searcher today will please, educate and enchant.
