From the moment you begin reading this book, you will be able to read your hand, or for that matter anyone's hand without confusion. Not only to read, but also be more, than 90% accurate on anything that you discover. Although hand shapes are also important. This book deals with the lines, mounts, formation of lines and the influence each have on the other. As the author I have spent more than three decades researching various areas of paranormal, developing a keen interest in palmistry discovering its usefulness as a tool to understanding ourselves. Through private consultations his clients have been able to realize and developed latent talents, which have later proved to be assets to their success. The goal of this book is that by putting into practice and expanding on what you learn in these pages, you will have a clearer perspective of palmistry and become more aware of your intuitive potential." Please note that a portion of the profits of this book are to be used to create a program for victims of PTSD & Emotional Trauma ". A cause I personally feel very strong about.
