This is a great historic map of the D-Day battle fields. It shows troop movements for a three month period from June 7th 1944 until August of 44. It was a wonderful resource for the D-Day 70th anniversary celebration. We visited the Normandy battlefields in April 2014 and saw the map there. It was a bit cheaper on [Amazon](#) than in France.

Reprint of the historic map from Michelin published after WWII. Very helpful for understanding the positions of Allied troops during the Normandy liberation. Highly recommended both for students and for those who will be traveling to Normandy.

Loved having this when I was in Normandy. Sat on a bluff overlooking the water and this showed just where all the Allies were and went all across the sixty-five mile invasion beach coast. Printed in old style paper and print. Very retro and well made. Very well worth it.

I first bought this map when we visited for the 40th anniversary of the Battle of Normandy. I found it excellent, clear and, explanatory for our visit. I kept it in my collection and didn't want to give it away. This year a friend is visiting for the 70th anniversary, I bought the map for him.

Very interesting reprint of post-war map issued in 1947. Red overprint on standard map, showing dates of advance of Allied forces. A note says most military cemeteries are not shown, as they were established after 1947.

The map was cluttered with day to day combat movement which was useful but i would have preferred a regular war time map of the period which could have been printed on the back side.

Wanted a good battlefield map for a visit to Normandy...this was adequate at best...no legend, so finding small towns was exasperating...not a lot of help...found MUCH better maps at some museums behind the beaches.

Highlights the important places involved with the D-Day invasion and breakout from Normandy. The notes are okay, but knowledge of the battle is helpful to fully understand the map. There is an illustrated inset that explains the battle well, and you can relate it to the map. Not expensive, and if going there, should be in your bag.
