Customer Reviews

Larry Jameson, MD PhD is Dean of the Northwestern University School of Medicine, and one of the

leading figures in academic medicine in the United States. In addition to being a Harrison's editor, he is an editor of leading textbooks and reference books in medicine. The contributors to the book are the best of the best in nephrology and acid base. Hersey Professor of the Theory and Practice of Medicine, Harvard Medical School; Chairman, Department of Medicine; Physician-in-Chief, Brigham and Women's Hospital, Boston, Massachusetts

excellent

very good

Very thorough, readable and well-written work. A great review of nephrology particularly for the non-nephrologist. It's a 5-star book with 3-star e-formatting, so I split the difference. The e-book is not cheap and does not navigate well. If you are going to charge more than the \$9.99 of an ebook, please make the index navigate. I keep it on my ipad as a quick work reference and want to be able to use the index.

Excellent synopsis of acid base balance and related disorders. Definitely the book of choice for this topic.
