Luna Of Mine, Book 8 The Grey Wolves Series

Synopsis

We've watched the Romanian Grey Wolves find their true mates, fight against evil and reunite with the other Canis lupis in the world. Now we will see just how the most powerful Alpha in their history met his match with the woman who became his mate, and helped him become the man he needed to be in order to lead. Every life leaves behind a legacy. Every story has a beginning and an end. The Alpha of the Romania Grey Wolves knows this better than most. He also knows it's the things that transpire to create that legacy and the experiences, triumphs and failures that happen in the middle of the story that matter. His story began a century ago and now a tragedy has led him to his rightful place as Alpha of the Eastern Romania pack. Before he led hundreds, he had to learn to lead a few. Before he sacrificed for all, he had to be willing to sacrifice for any. Before he could be the man destined to save his race he had to be willing to serve them. In order to be raised up he had to first be torn down. There was only one who could do this and live, only one who could light his way when the darkness closed in; his mate, his Luna. This is the building of their legacy, the middle of their story. Their triumphs, their failures, and their tragedy that would one day make them strong enough to restore a race torn apart by greed, envy, and fear.

Customer Reviews

Ok. I loved it! I have always had a thing for Vasili and Alina but after reading their story more than ever. This story explains a lot including Vasili's relationship with Peri. The struggles they encountered in the journey they took to become the Alphas they are is one of secrets, betrayal, love, and an incredible amount of patience and self-control. Absolutely loved it and can not wait for the next! (This is going on indefinitely right Quinn?)

I would first like to say that I have been an active reader of the Grey Wolves Series. I look forward to every book release and book announcement. Quinn Loftis has created a series that I never thought would come to light. Nowadays, readers and publishers are looking for the vampires. No one is looking for the werewolves... or Canis Lupus. When I first read the first book I was so excited. Finally someone was writing books about "werewolves". As I progressed in the series, I became more intrigued to find out that Alina and Vasile would be getting a book. Readers had been so focused on the three girls that they weren't really thinking about a book for Vasile and Alina. Sure, we were wondering what was their life like before now, but we were too caught up in the suspense of the three girls. I thought that this would be the last book in the Grey Wolves Series, but I should have known better. Quinn Loftis, for this series so far, gives every pair two books. I was expecting an abbreviated version of their life. What I got instead was much better. Quinn is giving these characters so much depth and she is showing us the evolution the characters went through. Vasile and Alina are not the same people/alphas as they are now. Out of all of the characters we have been introduced, these two have the biggest arc of character. We know the least about these two characters and it was refreshing (and EXTREMELY exciting) to lift the veil and uncover their past. Quinn Loftis, this has been one of my top ranking books you have written. I can see the time and planning you did for this book in your writing. You have made it so that you can continue the series through Vasile and Alina. I have a feeling that Vasile and Alina's past is going to play a part in the upcoming books. Also, I am glad we are able to continue reading about the younger characters, I would have missed them terribly. Good luck writing your other novels and keep these juicy books coming our way.

Teenage romance novels. They're all kinda the same except that these emphasize controlling and

dominating men as a way of life. Plus there are a absolute ton of grammar and spelling errors in every one of these books. The concept and world itself is very interesting and could have been written much better had the author paused long enough to think out her plotlines and use spell check. Also, don't get your hopes up for tragedy. The second some sort of meaningful misfortune befall the main characters some sort of magical something comes in and saves them from it.

Quinn Loftis's Grey Wolf Series has kept me in suspense for quite a few years. Never a dull moment in the stories. The editing isn't very well done. Many typos throughout books 2-9; and I was quite surprised at the amount. I read the Kindle versions, so maybe that has something to do with it; but if I was able to click a link directy to Ms. Loftis informing her of the typos, I would. The sexual content is very clean and beautifully worded. Love her ideas and wih there were continuing books. I have just begun reading Book 9; but truly loved Luna of Mine.

There is so much running through my head right now concerning Luna of Mine that I honestly don't know where to begin. I have to say it felt so good to spend some time with Jen, Sally and Jacque and their mates. I have missed the humor and the verbal flirty play especially with Jen and Decebel. This book is the perfect conclusion to the Grey Wolves Series. Throughout Prince of Wolves, Blood Rites, One Drop of Blood, Out of the Dark, Beyond the Veil, Fate and Fury and Sacrifice of Love, you literally fall in love with these girls and their mates and their adventures truly keep you on edge. You see the love between Vasile and Alina but this story gives you a beautiful glimpse at this couple, their trials and triumphs, the lessons learned and above all love and sacrifice and what it truly means to be mated to a Canis Lupis. You will not want to put this book down because the characters stay with you and the adventure really keeps you glued to each page. I think my favorite part between Alina and Vasile is captured in the excerpt that I have posted in this blog post. It was nice to see a different side of Alina that was much like Jacque, Jen and Sally in her own way or at least I thought so. I can't even begin to thank Quinn Loftis for the treasure she has created in this series and the way it seriously touched my soul. It honestly felt as if she was in my head and could hear my heart saying what I would want out of a mate. I honestly wish I could jump into this series because it truthfully has found a permanent home in mine. Don't miss out on this amazing read and you will find that if any book is worth getting a book hang over for this book is. So stock up on your hot chocolate and popcorn because you are in for one amazing ride back into time!

It was nice to get the story behind Vasile and Alina's story. This story reminds us that thru our own

lives there will always trials and tribulations and if we are strong and believe in the ones we love we can get through anything.Until Next Time..... Tabi

I hadn't known she'd written anymore of the grey wolves series! I love her writing. so this was a beautiful coming of age story, a beautiful true love story and a beautiful coming into your own. the love they felt for each other, crossed the years, truly 4 years before the Alpha's we know were mated and "married' by blood rights! such a amazing story! very cool to see through their point of view. starting reading into the Fea now! the next series that comes off this one!
