Polo

Synopsis

This volume details the power and risk of the sport that has entranced kings and commoners alike for centuries. Players travel at 30 miles-an-hour atop 1200-pound ponies in contact with their mounts at only two points, and send the ball 200 yards with one swing of the mallet.

Best Sellers Rank: #1,403,799 in Books (See Top 100 in Books) #17 in Books > Sports & Outdoors > Individual Sports > Horses > Polo

Customer Reviews

I love this book - the photos are beautiful and is a great conversation starter for your coffee table. I've introduced many people to Polo since having this book out on display for them to explore! Purchased used and is in nice shape.

It's a nice book, which gives you with few words a little introduction to this sport. The forward says:"... Polo is not for everyone, in many ways the game and its culture occupy such a rarefied environment that having aa casual interest in the sport is almost impossible. ..."Pics of the game, the speed, players and spectators, sometimes only horses and people behind the ponylines. A little bit of polo magic; simply a coffee table book. Something to show friends or a nice present also for horselovers.

"Polo" by Penina Meisels is the only book on the sport of Polo that has captured the romantic essence of the game. It was easy to transport myself back in time through the photography and conjure up wonderful stories that happened on the sidelines.

"Polo" by Penina Meisels is the only book on the sport of Polo that has captured the romantic

essence of the game. It was easy to transport myself back in time through the photography and conjure up wonderful stories that happened on the sidelines.
