JENNIFER OLVERA is a food writer, recipe developer, and author of the definitive *Food Lovers' Guide to Chicago*. Having written her first recipe on an index card when she could barely hold a

pencil, sheâ€™s dedicated her life and career to cooking and enjoying food. Never one to be told â€œEat your veggies,â€• or, frankly, meatâ€•sheâ€™s traveled the globe sampling ingredients and stuffing her suitcase with edible souvenirs along the way. For years she penned the popular â€œSunday Supperâ€• column for Serious Eats and currently contributes features to the Chicago Sun-Times, Los Angeles Times, Frommers.com, and more. This is her fourth book.

Book has some good original recipes, but also has some time tested recipes that are still worth making. Some of the recipes are available elsewhere, but was worth purchasing this book.

it gives me ideas

Some pretty good recipes

Haven't had much time to make the recipes. What we have made turned out VERY good.

Great recipes

not very impressed with this book thus far... Same old recipes I've found in other cook books

*** LANGUAGE ***Plain, easy-to-read English with no profanities.Quick OverviewExcept for the page layout as displayed on a Kindle or using Amazon's free Kindle App, this is a terrific cookbook produced by a cook who knows the business.Just as at least one other reviewer did, I purchased this book on Amazon and read it, or am reading it, as I prepare this review. However, what might please the one negative reviewer is that I am, as I usually do, attaching some recipe screen shots so those considering purchasing the book can be fathom the contents before purchasing.I'm going to briefly touch upon what I admire, and what I wish had been included in this awesome book for people using crock pots for their meal preparation.â€œ my lovely wife is the home cook in our family and she loves slow cooking more than most cooks.Q - How was this book obtained?A â€œ Purchased on Amazon.Q - Are there a lot of typos/misspellings, grammatical errors or other editing failures?A â€œ No.Q - My biggest pleasure or disappointment?A â€œ There are several features I appreciate and admire.â€• Photographs of the finished meal.â€• Prep timeâ€• Cook time.â€• Ingredient listing in an easy, logical sequence that minimizes likely mistakes by cooks.My biggest disappointments, though, are of importance to me and, I suggest, to

many other cooks. Chief among them: Page layout on Kindle. To get the ingredient listings all on the same page is difficult and, when successful, results in a type size that is nearly impossible to read. I hope the author can try to revise a future edition to fix this. No calorie count and no nutritional information is provided. This is of especial interest to people afflicted with Type 2 Diabetes or other health issues. Look to the Kindle book "Time 100 Healthiest Foods and How to Eat Them" for guidance on some of these issues. TIME 100 Healthiest Foods and How to Eat Them To give a feel for the editing, and the style and flow of this work, I am posting a brief excerpt below. Excerpt Instead of an excerpt, I am attaching screen shots to display some recipes. Bottom Line: All in all, despite some misgivings, this is a terrific volume of interest to any cook looking for great slow-cooker recipes. Four stars out of five. Comments regarding your opinion of this book or of my review, whether favorable or unfavorable, are always welcome. If you buy the book based on my review and become disappointed, especially, I do want to know that and I want to understand how I can improve as a book reviewer. Just please be polite. Thank you.

Absolutely LOVE this cookbook! I purchased one for myself and two as gifts. I can't wait to bite into these fabulous meals! Recipes are simple to follow and love how all the ingredients are listed on the side for you to make your own shopping list. I look forward to more cookbooks by Ms. Olvera. HIGHLY RECOMMEND this cookbook.
