International Taxation In America For The Entrepreneur, 2013 Edition: International Taxation For The Business Owner And Foreign Investor

Synopsis

Updated in January 2016 with the newest tax saving strategies, this book is perfect for the small business owner or international investor. When you are reading "International Taxation in America for the Entrepreneur", you'll learn to redefine your meaning of the word "Taxation" ...that elusive "something" that is an inherent problem in so many of your businesses...and you'll gain the insight of how to move beyond the myths and the barriers that can cause your "bottom line" to be adversely affected. Easy to read and understand with a blueprint to solving the multinational tax challenges that your business faces. You'll experience chapter after chapter of time-tested practical tips, the techniques and the innovative strategies that have helped so many businesses to overcome the international tax challenges... that hold back their growth and income potential. For the business owner, International Taxation in America for the Entrepreneur is tax jargon free. You quickly learn how to save taxes and protect assets. Today's entrepreneurs are finding cross border business planning is easier than ever before. The cross border business and the multinational family are using onshore (Nevada) "foreign trusts" for tax planning, inheritance planning and asset protection. Innovative tax ideas such as the tax advantages of an offshore cloud computer system and the E-commerce business. No tax book would be complete without a complete explanation of captive insurance company. You will learn how they make money, how they save taxes and how they protect assets.

Customer Reviews

Updated in January 2016 with the newest tax saving strategies, this book is perfect for the small

business owner or international investor.

E-commerce's innovation has left gaps in U.S. tax laws. Chapter One is the only treatise that examines the ineptness of Congress in using ancient tax laws for today's virtual world and E-commerce. Ironically, trusts (which have been used by the wealthy since the Great Crusades) are the ideal tool. Look at this change. In 1910, electricity was not in the White House. Cars were laughed at, with jokes like, "Get a horse!" Phones were rare, and there was no air travel. International Taxation in America presents the most complete and indispensable guide to international taxation available in today's market. Author Brian Dooley, CPA, is a seasoned tax researcher and specialist in international tax. Only this book includes hundreds of links to advance international tax information. The book is written to take advantage of the new Kindle Fire and the Kindle app on the I-pad. It is the most popular international tax book on the market with more than 2,000 units of the Kindle downloaded in the first three months of year 2012. Covering international taxation for businesses, the taxation of shareholders of foreign corporations, foreign tax credits, cross-border estate planning, and much more, Dooley offers meticulous research and clear explanations of hundreds of international tax-related issues. Whether the subject is tax haven corporations and trusts, reducing taxes through tax treaties, learning how Americans are taxed abroad, or estate planning for multi-national families, Dooley explains the subject in thorough and clear language. International Taxation in America provides valuable lessons for your enrichment, including useful links to help guide you online. About the Author Brian Dooley, CPA, MBT has been specializing in offshore taxation since 1974. He has helped numerous accountants and attorneys serve a broad range of individual and business clients in various international tax and estate planning matters. Also, he has on nine occasions offered expert witness testimony before the U.S. Department of Treasury and the U.S. House of Representatives on issues related to foreign investments, foreign trusts and private annuities. His experience includes:

- * Obtaining private letter rulings and voluntary disclosure agreements from the IRS
- * Resolving (on an anonymous basis) undisclosed cross-border tax issues with the IRS
- * Advising attorneys and CPA's, since 1976, on 100's of international tax audits and IRS agreements,
- * Developing tax-efficient international estate plans
- * Implementing strategies that minimize cross-border taxes

Expertise Brian's forte is obtaining written IRS rulings on tax planning strategies to guarantee savings. He also excels in counseling chartered accountants, CPAs and attorneys in international tax law. He is highly skilled in using the IRS tax-amnesty program, private letter rulings, foreign business tax credits and offshore trusts to help clients:

- * Achieve their international tax and estate

planning objectives * Protect themselves from audits, penalties and unpleasant tax surprises * Avoid IRS tax controversy * Set up captive insurance companies * Deal with foreign inheritances * Immigrate into the United States or open a U.S. office for a foreign company Publications* Estate Planning with a Foreign Trust * Contributing author to Taxation of International Transactions, edited by Matthew Bender Involvements* American Institute of Certified Public Accountants, Member * California Society of Certified Public Accountants, Member Education Bachelor of Science in Accounting and Masters in Business Taxation from the University of Southern California.

I got this book several months ago and just occasionally I've been browsing through it, but now that I need it most I've read it all and I can tell that I will get back to it several more times: highly informative and educational

I bought the Kindle version to compliment the International Taxation in America which the author was kind enough to post three chapters free on Kindle back in 2012. The subject matter in these books is very technical and is certainly not for the novice.

Followed up by meeting with Brian Dooley. Expert in personal and business tax.

Brian Dooley's new book, "International Tax Planning in America for the Entrepreneur" is a must-read for international tax experts. Brian is a renowned expert on the international tax issues faced by businesses and is a "fountain of information."

This book makes sense for any business owner who is operating or considering operating in multiple countries. Brian Dooley makes sure businesses don't pay more taxes than they need to. He is truly an expert in his field.

Excellent

Brian gives a very detailed view of this complex foreign tax area. He divides the book well so it can easily be followed by the readers.

A well written book with lot of valuable information in a single place. Brian has a good command of the subject matter
