I bought this book for myself, I did not purchase the other book as my husband has recently become atheist. I have had struggles in my marriage since then so I bought this book to help work on myself. To help work on my love for my husband despite our major differences. It has, in a way, "forced" me to love him even on our bad days. This book can humble you, if you let it. I assume the Bethke's wrote this book with intentions of being a fun challenge for couples, but considering my situation this has instead left a different, but great impact on me. If your relationship is God based get this book, if one believes and the other doesn't, get this book, if you find it hard to love your husband, get the book. I don't think you'll regret it. This book will help you more than it will help him, as long as your

not looking for anything in return.

My husband and I love everything by Jeff and his wife Alyssa. They really inspire us to be active in our marriage. We were looking for something to help us be more engaged in our relationship and this has definitely helped!

I am half way through this book and every day, i put a smile on my husbands face when i do each activity. I love how it gives me ways to show how special he is to me.

This book has deeply impacted me as a life partner. It's hard to know when you're in need of a relationship "kickstart", as I like to call it, but this book is the perfect combination of revolutionary change and a familiar re-building of habits. My relationship has new energy and more focus than it has in a long time. I wake up every morning excited to work on the next challenge for the day. Even though some get lumped together on the weekends just due to school and schedules (college forever and ever amen) it still creates an environment of intentionality within myself and within my man! Thank you Jeff and Alyssa!

I love this book. so simple yet profound. These are short and creative ways to show love and appreciation for your loved one. I'm working my way thorough the 31 ways and I'm looking fwd to do them all!

Bought this as part of a bridal shower gift for my friend who loves to read. She loves it!

Loved loved loved the book. Next in series already ordered! The use of words really brings the book alive and the values it shares are encouraging. Need more good writers and books like this!

My husband travels a ton, so when he's home I do the page/day that is next. So far I love it, and I can see a difference in his attitude/behavior when he is home. :)
