In today's global environment, negotiators who understand cultural differences and negotiation fundamentals have a decided advantage at the bargaining table. This thoroughly revised and updated edition of *Negotiating Globally* explains how culture affects negotiators' assumptions about when and how to negotiate, their interests and priorities, and their strategies. It explains how confrontation, motivation, influence, and information strategies shift due to culture. It provides strategic advice for negotiators whose deals, disputes, and decisions cross cultural boundaries, and shows how to anticipate cultural differences and then manage them when they appear at the negotiating table. It challenges negotiators to expand their repertoire of strategies, so that they are prepared to negotiate deals, resolve disputes, and make decisions regardless of the culture in which they find themselves. For those who are relatively new to negotiation, the book offers an overview of the various contexts (deal making, dispute resolution, multicultural and team decision making, social dilemmas, and negotiations between government and foreign direct investors) and building blocks of negotiation strategy. It then focuses specifically on negotiation strategy and culture, how negotiation is practiced in different cultures and why, and what the negotiator crossing cultural boundaries can do to modify strategy so as to realize interests and maintain integrity even when confronted with a very different cultural approach to negotiation. Old familiar negotiation concepts, such as power and interests, take on different meaning in different cultures. In *Negotiating Globally*, award-winning negotiation expert Jeanne M. Brett discusses three primary cultural prototypes: dignity culture (familiar as Western culture), face culture (familiar as East Asian culture), and honor culture (which characterizes cultures in the Middle East, North Africa, and Latin America), comparing and contrasting these cultural prototypes with respect to the nature of self-worth, power, sensitivity to insults, confrontation style, trust, and mindset, with the purpose of generating insight and understanding as to why negotiators in these cultural types use strategy similarly or differently. She explains whether direct or indirect confrontation is preferred in each type of culture and why, and then introduces several approaches to resolving disputes, with advice about how to uncover interests, rights, or power positions, and how to use each of these approaches effectively. *Negotiating Globally* provides a framework to help negotiators anticipate and manage cultural differences—no matter who shows up at the negotiating table.

Praise for *Negotiating Globally*, Third Edition • Foreign direct investment requires negotiating with governments and their entrenched bureaucracies. *Negotiating Globally* explains how to understand the interests of each, and negotiate investments that are both profitable and sustainable. •

• YOUNG SOO KANG, director general, KOTRA, Korea • In today's global environment,

Negotiating Globally explains how to adjust your strategy to negotiate effectively whether you find yourself in the West, the Middle East, Asia, Africa or Latin America. • "MELIH KEYMAN, CEO, Keytrade • "Few subjects are as critical " or as confusing " as negotiating across cultural boundaries. Jeanne Brett provides a clear, detailed summary of the emerging research on the three major ethnic cultures around the globe, showing how each influences negotiation in ways we are just beginning to understand. She ties together state-of-the-art approaches on negotiation with leading-edge theories on global cultures. I found her explanations and examples very helpful in furthering my understanding of this complex area, especially in the first three chapters. Highly recommended for anyone seeking to enhance their knowledge of the field.

This book is simply excellent for all those professionals and students who are looking for a deep and precise overview on negotiation and dispute resolution.
